

Sue Knight - my 'to do' list

St Andrew's Ward

30MPH zone extension to the viaduct, Valebridge Road

Crossings at Manor Road School, two to be installed shortly, as from 28th April 2013

Traffic management measures to prevent 'on pavement' parking by motorists

Improve residents parking in Woodlands Avenue and Woodland Crescent areas

Sort out the parking mess in Cants Lane caused by Developers making promises to fund road improvements which never materialise. *The Traffic Regulation Order to achieve this will be in place in the current financial year.*

Add a 'no entry, unless your exit is clear' box at the level crossing to improve road safety.

Franklands Ward

Add a 'no entry, unless your exit is clear' box at the level crossing to improve road safety.

Install road crossing along Kingsway for children and residents to cross more safely at busy times and 20MPH part time school zones. *This will be in place in the current financial year.*

Improve and reduce 'risky' parking along Keymer Road by The Burgess Hill School area and Oak Hall Park *The Traffic Regulation Order to achieve this will be in place in the current financial year.*

Meeds Ward - South

Improve on and off street parking services. It is a disgrace that Conservative Councils can't work together to put commuter car parking BACK into Car Parks and free up residential Roads.

Anti-parking bollards to be installed around school road junctions. *This will be in place in the current financial year.*

Currently a scheme to protect road verges from uncontrolled parking is being developed before presenting to the community for comments.
