

**County Councillor Sue Knight with a local resident, inspecting their small victory in getting a cowl fitted to the light on the road centre refuge in Folders Lane.**

A local resident, contacted Sue when a new brighter light was fitted to the lamp standard outside his home, just off Folders Lane.

He explained; “the new light had been fitted following an accident when a car hit the island in the road. When the engineers came to reinstated it a taller, brighter lamp was fitted. The problem is the light is right opposite my and a neighbours bedroom window.

I contacted Sue and she was able to facilitate this sensible solution. It is really nice to have a councillor who not only listens to our problems, but goes the extra mile and gets things done.”
